

Clark Forklift

At present, there are at least 350,000 Clark lift trucks performing globally, and in excess of 250,000 operating in North America alone. With five major lines across the world, Clark is proud to be one of the most expansive corporations in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, gas, LPG, hand-driven lift trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift, handles more than 120,000 specific components fabricated for 20 distinctive designs of lift trucks and automated equipment. Your regional Clark Supplier is your total source for availability of all your components needs supplied by Clark Totalift.

Clark has a phenomenal Parts Supply team. The components warehouses are conveniently positioned in Changwon, South Korea and Louisville, Kentucky to make certain exceptional service to both their buyers and their sellers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing producers. Motivated to provide the highest level of value and service to our clients, Clark remains on the cutting edge when it comes to improving productivity and benefiting performance.

Clark Totalift has a very outstanding international support network. With over 550 locations globally, supplier representation in over 80 countries and 230 locations in North America, their high level of commitment to their clients predominates the materials handling industry.

Clark proudly remains an innovative leader of the industrial equipment industry, pioneering protection features such as the worker restraint system. This exceptional commitment to safety is currently a customary feature on every forklift.

Clark's continual effort to possess the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first lift truck producer across the globe to be certified with the internationally approved quality standard ISO 9001 for each and every one of their manufacturing facilities. Furthermore, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement permits Clark to be prepared for any environmental limitations, thus placing them in a prevailing industry position.

Resource Efficient Manufacturing

Clark has selected the system of "Lean Production" at all of its assembly facilities because this method is extremely economical and allows for minimal use of resources. Established to ensure maximum efficiency, this system is designed to find and acknowledge the most effective methods for manufacturing plant management. Clark has completed this transition of its Korean plant. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and manufacturing efficiencies.

Engineering

By working in concert, Clark's product suppliers and engineers communicate towards improving product effectiveness while minimizing expenses. The contemporary value engineering program combines modern product development and provides improved client support and service within the industry.
